"Do you remember the feeling of listening to a band for the first time and being completely blown away by the sheer majesty of the performance? Prepare yourself for Ibrahim Electric!" – Hammondbeat.com, USA

"Dance, freak out, headbang - or smoke some grass and eat some funny mushrooms. No matter how you listen to Ibrahim Electric you'll have to agree that they have an effect on your body like an all-time total orgasm!" – Jazz Special, DK

"Gets under your skin and into your blood faster than a Ganges parasite... with their irresistible guitar motifs and cantering percussion, Ibrahim Electric could be the soundtrack for a spaghetti western in Mali" – All About Jazz, USA

IBRAHIM ELECTRIC has during the last couple of years been one of the most popular European jazz groups... These 3 personal instrumentalists have - besides the popularity with this group - made a name for themselves as some of the most striking on their respective instruments in Scandinavia.

The Danish trio IBRAHIM ELECTRIC never disappoints. Their quirky – provocative – extroverted - original music sticks its fingers into just about every musical cookie jar... and sends cascades of pearls from the speakers.

IBRAHIM ELECTRIC's style is not for the pedantic. There are elements of old fashioned soul/jazz – AFRObeat - 60's acid-power-beat - and of course the trio's trademark: the fast, almost-punk passages in which the three musicians merge into one playful organism.

Each of the band-members possess an extremely high level of musical ENERGY, and they have a mutual love for the pure energy in the music... This has made this unit extraordinary!

Whether Niclas is playing a guitar solo in the spirit of Ali Farka Toure...Jeppe is playing a solo that leads your mind to the Hammond-icons of the 1960's...or Stefan is playing a drum-solo with avantgarde elements, the one thing that overshines it all, is their love for playing and performing, and the sheer intensity of their expression!

This trio is a fantastic live experience ! - an experience which has been delivered in following countries so far:
USA – Canada – Morocco – Brazil – Denmark – England – Ireland – Scotland – Poland – Sweden – Norway – Finland – France – Germany – Lithuania – Latvia – Estonia – Netherlands – China – Korea – Thailand !

JEPPE TUXEN:

Considered one of the most talented Hammond organ players in Europe. He started out as a pianist but migrated to the Hammond B-3 after having tried this powerful instrument at a recording session.

After graduating in 2003 from Rhythmic Music Conservatory in Copenhagen, he has proven himself to be a very versatile musician. He has been seen in a lot of different contexts but his main focus has since 2004 been with the trio Ibrahim Electric, where he really gets to experiment with his more expressionistic sides.

His style of playing has been compared with such different organ players as: Jon Lord (Deep Purple), Booker T. Jones (Booker T. and the MG's), Jimmy McGriff, Larry Young and Dr. Lonnie Smith.

The critics wrote: *"The Hammond-playing by Tuxen has 'God-like' calibre in my ears.."* - Jazz Special Magazine, 2007.

"Jeppe Tuxen treats his Hammond B3 as if both Jimmy Smith and the Devil himself were close on his heels." – Information 2004.
